Official Attachment to the Drainage Study Application of the Annetta South Subdivision Ordinance # 2022 01 05.

Drainage Study Application Requirements as per the Subdivision Ordinance #2022-01-25:

1. Pre-Development Drainage Area Map and Post Development Drainage Area Map on Separate Sheets. Drainage areas contributing drainage to the proposed subdivision shall be shown. The information submitted shall include the area, slope, type of development in contributing area and calculations for the rate of runoff from that area to be carried through the proposed subdivision.
2. The Proposed Site Plan, Pre-Development Drainage Area Map and Post Development Drainage Area Map shall show Topography shown by contour lines on a basis of two feet (2') vertical intervals on flat land and five (5') on steep grade property. All elevations on the contour map shall be referenced to the latest U.S.C. and G.X. data.
3. The following Existing Features shall be shown on the Proposed Site Plan, the Pre-Development Drainage Area Map and the Post-Development Drainage Area Map: City Limit Lines, ETJ Lines, Property Lines, Existing right-of-way lines, Existing Roadways, Existing Lot Lines, Existing Easements, Existing Drainage Ways, Existing Culverts, Existing Drainage Swales, Existing Open Channels, Existing Detention Basins, Existing Parks and Open Spaces, Existing structures such as existing walls, existing buildings, existing homes, existing barns, existing accessory buildings, existing fences, existing roads, existing driveways, existing wetlands. And Existing Floodplains and/or areas inundated by the 100-year storm including those identified by FEMA Firms and FIRMettes. Easement documents shall be provided for all existing easements for review.
4. The following proposed features shall be shown, identified and dimensioned on the Proposed Site Plan and the Post-Development Drainage Area Map: Proposed Lots, Proposed Roads, Proposed Right-of-way lines, Proposed Easements, Proposed Drainage Ways, Proposed Culverts, Proposed Open Channels, Proposed Drainage Swales, Proposed Detention Basins, Proposed Driveways, Proposed Walls, Proposed Fences, Proposed Entry Features, Proposed Utilities, Proposed Parks, Proposed Water Features, Proposed Wetlands, Proposed Public Areas, any Proposed Changes to the floodplain and/or areas inundated by the 100-yr storm, and Proposed Grading Topography shown by contour lines on a basis of two feet (2') vertical on flat land and five (5') feet on steeper grade property. All elevations on the contour map shall be referenced to the latest U.S. C. and G. S. data.
5. The location or locations of disposal of drainage from the Drainage Areas contributing to and including the proposed subdivision shall be shown together with the quantity of drainage totaled per exit discharge location in the calculations shown on the Pre-Development and Post-Development Drainage Area Maps.
6. Directional low arrows shall be shown on the Pre-Development and Post Development Drainage Area Maps to indicate direction of storm water flow.
7. Any increase in the rate of storm water runoff for pre-development to post development for each stormwater exit point shall be detained so that there is no increase in the rate of storm water runoff from pre-development to post development.
8. Detention structures and detention calculations shall be shown for detention volume, detention stage storage and reduced rate of runoff for the 1-yr., 5-yr., and 100-yr. storms. Refer to the following sections of the Annetta South Subdivision Ordinance for guidance Section 28:Storm Drainage Facilities; Section 28 Storm Drainage Facilities; EXHIBIT A Storm Drainage EXHIBIT E: the City of Ft. Worth iSWM (integrated storm water management) Stormwater Criteria Manual dated September 29, 2015; Exhibit F: The City of Ft. Worth iSWM Technical Manual Construction Controls section dated September 2014; EXHIBIT G: City of Ft. Worth iSWM Technical Manual Hydraulics section dated September 2014, EXHIBIT H; City of Ft. Worth iSWM Technical Manual Hydrology section dated September 2014, Exhibit I; City of Ft. Worth iSWM Technical Manual Landscape section dated September 2014, EXHIBIT J; City of Ft. Worth iSWM Technical Planning section dated September 2014, EXHIBIT K: City of Ft. Worth Technical Manual Site Development Controls section dated September 2014; EXHIBIT L : City of Ft. Worth Water Quality section dated September 2014; EXHIBIT M; City of Ft. Worth; iSWM Technical Manual iSWM Construction Control Standards Details dated 2018.
